

**Ysgol Gynradd Gymraeg Penderyn.**  
Policy for Target Setting.

**Approved by Governing Body: 18/10/22**

Signed (Chair of Governors): Mrs P Oliver

Signed (Headteacher): Mr A Wood

Review Date: Autumn 2023

Ysgol Gynradd Gymraeg Penderyn

## **Policy on Target-Setting**

### **1 Introduction**

- 1.1 We are committed to giving all our children every opportunity to achieve the highest of standards. Target-setting is the means by which we identify specific and measurable goals that help to improve the standards achieved by all our children. Targets may relate to individual children, groups of children within classes, or whole cohorts of children.
- 1.2 Target-setting also allows us to ask some key questions about the performance of our school. These are:
- How well are we doing?
  - How much added value do we make to the progress of children at each Key Stage?
  - How do we compare with similar schools?
  - How well should we be doing?
  - What more should we aim to achieve?
  - What must we do to make it happen?
  - What action should we take, and how do we review progress?

### **2 Rationale for target-setting**

- 2.1 Target-setting is a significant strategy in our school for improving the children's achievement. We know that it will be effective only if we remember that the child is at the heart of the process. The targets that we set are challenging, but realistic, and take into account each child's starting point.
- 2.2 We involve the children in the target-setting process and, wherever possible, negotiate and encourage them to set targets for themselves. Regular feedback from teachers makes children aware of how they can improve their work and achieve their target. Target-setting for our children means that they have to make decisions about their own learning. This helps them learn more effectively, by making clear what it is that they need to do next in order to improve.
- 2.3 We inform parents and carers about our target-setting process and our targets for their children. The parents and carers have regular opportunities to talk about their children's progress towards their targets. This helps parents and carers to identify the ways in which they can support their child with work and encouragement at home.
- 2.4 Each year we identify and prioritise targets. The targets that we set for our children help to determine these priorities. The actions that we then plan are linked to the children's targets. We thus ensure that our plans really will have an impact on our children's learning. Our governors are involved in reviewing the targets in our SDP on a regular basis.

### **3 Aims and objectives**

- 3.1 In our school, the targets we set:
- challenge all children to do better;
  - take into account each child's starting point for learning;
  - encourage children to discuss and review their progress with teachers regularly;
  - involve parents or carers in their child's learning;
  - help governors to agree priorities for the SDP;
  - lead to more focused teaching and learning;
  - help us to make judgements about how well our school is doing when compared with all schools and with similar schools.

## **4 The target-setting process**

- 4.1 When children join our school, we make an assessment of their learning within the first term, using the Baseline Assessment. We use the outcomes of these assessments to identify strengths and areas for improvement in individual children and in groups of children. We record these expectations in our Assessment Tool – Taith 360.
- 4.2 In the Autumn term targets are set for children for the end of current academic year. We base this forecast on the child's current performance, on assessment and other data, and on the teacher's own knowledge of the child's rate of progress during the year. The teacher then considers what the child could possibly achieve, beyond the forecast, if appropriately challenged. At the end of each year, the child's class teacher makes an assessment of attainment by each child.
- 4.3 Teachers discuss with the headteacher and deputy headteacher the targets they have set. We make comparisons with the performances of similar schools, in order to ensure that the targets that we set do offer a real challenge.
- 4.4 Before agreeing and finalising them, we discuss the draft targets before submitting them to the LA. The governing body fully accepts that the targets that we set are based on the current attainment of each cohort of children. We do not necessarily expect targets to become more ambitious year after year; they must reflect the ability of the cohort, and challenge at the appropriate level.
- 4.5 Teachers use the targets set for each child to develop classroom activities that are designed to help children to meet their targets. Teachers will take account of these targets when planning work for different groups of children.
- 4.6 Every term, we offer opportunities for the children to review their progress with the teacher. The progress the children are making forms part of the discussion that teachers have each term with parents and carers.
- 4.7 As part of the child's annual report, we produce a statement about progress towards his or her targets.

## **5 Target-setting data**

- 5.1 We use a range of information in our target-setting process. We expect teachers to be familiar with:
  - the school tracking system;

## **6 Target-setting across the curriculum**

- 6.1 In our school, we set a range of different types of target:
  - school attendance;
  - curricular development in the core subjects;
  - individual targets for children.

## **7 Monitoring and review**

- 7.1 This policy is monitored by the governing body, and will be reviewed annually, or earlier if necessary.
