In response to the question regarding school offering learning opportunities – this includes educational visits **and** activities at school. The school has offered a number activities this year (at school and off site) to enrich the curriculum.

When staff arrange these experiences we take into consideration numerous factors including: the cost of visits, staffing ratios and the age / maturity of children along with the financial implications on families. We are aware of the cost of budgetary constraints and the cost of living crisis on families and school.

All visits are heavily subsidised by school and the PTFA. In the event of a larger cost e.g. the Llain residential visit – this was heavily subsidised, and parents were allowed to pay in instalments from October for a visit taking place in May. As a result, most of the children attended the visit from Year 4, 5 and 6.

Your views and those of the children are always appreciated and valued and responses will be taken into consideration as we continue to refine and develop our school community.

Diolch.

Thanks very much for your cooperation.
